

Winter equipments

From us you can for the riding and other outdoor activities borrow winter shoes, winter overalls, hat, helmet, gloves, scarf/balaclava, mittens and socks. We also have sheets and a towel for you. It is no idea to have any riding boots with you, they are too cold.

If you have woollen sweaters, underwear, hat, gloves, scarf, socks we recommend you to take them instead of synthetic materials because it is warmer with wool. Cotton is not to recommend, that is a cold material. In the winter you have many layers of clothing, important is that it is not too tight, the air between the layers is warming.

Example what to wear under the overalls:

one layer of thinner underwear (sweater, trousers) in wool/(synthetic)

1-2 layers of wool/fleece sweater

1-2 layers of wool/fleece/jogging trousers/riding breeches

2 pair of woollen socks

Necessary equipments:

hat, gloves, scarf

1 pair of very thin gloves to wear under mittens

quilted jacket, quilted trousers (like for skiing) – you use them when you are not with the horses, otherwise they get smelly, and if it is needed like an extra layer under the overalls.

winter shoes – for non horse activities

2-3 woollen socks (1 off them thick)

underwear – long-sleeved sweater, long underpants

1-2 layers of warm sweaters (wool/fleece)

1-2 layers of wool/fleece/jogging trousers/riding breeches (soft materials so you easily can move)

clothes to wear indoors, underwear

sunglasses (Feb-April)

toilet requisites

slippers

(earplugs)

(camera)
